Circular procurement implementation in Estonia

CircPro action plan

Harri Moora
SEI Tallinn

25 January, 2023, Tallinn
CircPro project final conference:
"Enhancing circular procurement practices on the local level"
CircPro Action plan

Action 1 - Integrating circular procurement into national strategic documents

Action 2 - Develop recommendations for the Procurement register

Action 3 - Enhance procurers' capacity on GPP and CP
Action 1 - Integrating circular procurement into national strategic documents

Development of the national Circular Economy strategy

- Circular procurement principles are integrated into recently adopted Circular Economy White Paper.

Development of the new national waste plan.

- Circular procurement is one of the key tools for waste prevention and reduction.
Action 2 - Develop recommendations for the Procurement register

- The analysis of the necessary improvements of the register is currently undergoing
- The recommendations for improving the procurement register will be developed by the autumn 2022.
Action 3 - Enhance procurers' capacity on GPP and CP

- Capacity building programme on green public procurement for procurers has been carried out including the following topics:
  - Cleaning services (March 2022)
  - IT equipment (May 2022)
  - Graphic paper (May 2022)
  - Furniture (July 2022)
  - Circular procurement training seminar (December 2022)
Action 3 - Enhance procurers' capacity on GPP and CP

GPP support has been strengthened

- Infoportal of GPP
- GPP Helpdesk
- GPP training videos
- Circular procurement electronic tool (ringhanked.ee)
Thank you!
